

# ADEPT™

## Product Brochure

High performance demand response system for  
paratransit operations

“It makes a novice look good. We’ve been able to work with ADEPT and put customers first.”

**Pullman Transit**

# Overview

ADEPT is the most advanced paratransit dispatch system in use today. Deployed worldwide and performing over 25 million trips per year, ADEPT maximizes operational effectiveness, improves on-time performance and reduces cost per mile.

ADEPT is the world's highest performance paratransit demand response software.

## Adjusts to your specific business needs

- Configure the ADEPT system to follow your unique business rules
- Support up to 50,000 trips per day and an unlimited number of riders
- Increase customer satisfaction with superior on-time performance
- Easily manage compliance requirements with a comprehensive rider database, certification tracking and flexible reporting system

## Transforms overall operation

- Optimize resource utilization with the industry's best scheduling & routing engine
- Reduce reservation calls by enabling riders to manage their trips online
- Minimize no shows by providing real-time ETA notifications close to the time of pickup
- Improve productivity to drive down cost per vehicle mile and achieve new heights in efficiency

# Major Capabilities

## ADEPT

This mobile app provides your drivers with up-to-date trip manifests and turn-by-turn navigation for optimal productivity and safety.

- Track arrival and perform events at each stop while maintaining continuous communication with dispatch
- Maximize vehicle safety and accuracy with turn-by-turn navigation, including optional real-time traffic alerts
- Available for Android or the DDS mSlate™ ruggedized tablet

## ADEPT Concierge

Improve the passenger experience with a branded mobile app that provides your riders with the freedom to book and manage their own trips at their convenience, while also receiving notifications about arrival times.

- Allow riders to book and manage trips independently, reducing reservation calls and improving riders' overall quality of experience
- Keep riders informed and minimize complaints and no-shows with map view of route and vehicle location, trip ETAs and push notifications

# Our Purpose

At DDS we believe that all stakeholders involved in the execution of the booking process should benefit.
