

TaxiBook™

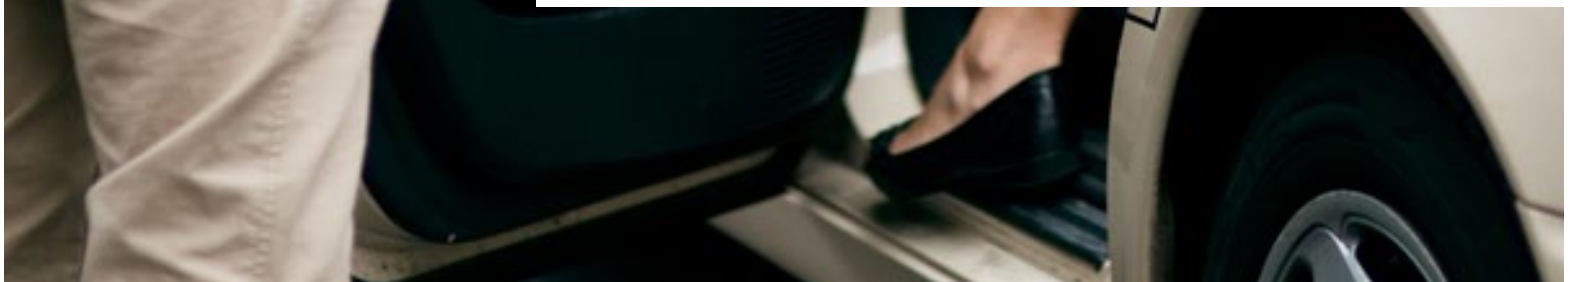

Product Brochure

The Taxi Management system for Taxi Fleets ranging
in size from 30-300

“In summation, DDS and TaxiBook have managed to fill a void in the marketplace. By keeping the investment affordable, small businesses are now equipped with the tools necessary to expand their fleet sizes, all while maintaining efficiency and customer and employee satisfaction. Our response times have dropped substantially. DDS has been a key component to our success.”

Coop- 50 Cabs

Overview

Optimize your taxi fleet with TaxiBook's dispatch system in the cloud, the easiest to use taxi management system on the market. TaxiBook's cloud-based taxi management system gives you the capability to dispatch your fleet efficiently, reduce dispatch errors and improve passenger satisfaction.

TaxiBook is the simplest and most cost-effective taxi dispatch system on the market

Optimize your business operations

- Automate your operations with real-time business intelligence and fleet tracking via GPS
